Solve the exercises

Tommy wants to order a Pepperoni pizza and a Margherita pizza. How much will his order cost in total?

$$11.99 + 9.99 = \underline{\hspace{2cm}}$$

Sally and her friends decide to order 2 BBQ Chicken pizzas and 3 sodas. How much will their order cost in total?

$$13.99 + 13.99 + 2.49 + 2.49 + 2.49 = \underline{\hspace{2cm}}$$

Michael and his family want to order 1 Supreme pizza, 1 Vegetarian pizza, and 4 bottled waters. How much will their order cost in total?

$$15.99 + 14.99 + 1.99 + 1.99 + 1.99 + 1.99 = \underline{\hspace{2cm}}$$

Emma and her friends order 2 Margherita pizzas, 1 Pepperoni pizza, and 3 beers. They choose the domestic beer option. How much will their order cost in total?

$$9.99 + 9.99 + 11.99 + 4.99 + 4.99 + 4.99 = \underline{\hspace{2cm}}$$
