Nice to meet you!

Max is an astronaut who has just landed on a distant planet. As he steps out of his spaceship, he sees an alien approaching him. The alien's name is Zorg, and he has been living on the planet for many years. At first, Max is scared of Zorg. He has never seen an alien before, and he doesn't know if he can trust him. But Zorg is friendly and tells Max that he is not a threat. They start talking, and Max tells Zorg about his mission and his travels through space. Zorg tells Max about his life on the planet and how he likes to explore its many wonders.

As they talk, Max and Zorg realize that they have a lot in common. They both love to explore and discover new things. They decide to explore the planet together and see what they can find. They climb up mountains, swim through rivers, and even find a hidden cave filled with glowing crystals.

Max and Zorg become best friends. They spend every day together, exploring the planet and learning from each other. Max teaches Zorg about the stars and the galaxies, and Zorg shows Max how to navigate through the planet's diverse terrain.

One day, Max realizes that it's time for him to go back to his spaceship. He's sad to leave Zorg behind, but he knows that they will always be friends. Before he leaves, Max gives Zorg a special device as a gift. Zorg is grateful and promises to use it wisely.

As Max flies away in his spaceship, he looks back at the planet and thinks about his adventures with Zorg. He knows that he will never forget his best friend, the alien who showed him the wonders of a distant planet.
